

Activity Importer Plus

Import Activities into *iMIS*

Activity Importer Plus imports all types of activities into *iMIS*.

- Imports unique activities into your *iMIS* database including marketing, calls, and event participation
- Intuitive user interface allows *iMIS* users to import data directly without help from IT or consultants
- Generates activities from IQA queries for marketing segmentation
- Saves import templates for reuse, making recurring imports a snap

“We love Activity Importer Plus!”
