

## ENSURE COMPLIANCE WITH POSTAL REGULATIONS.

### 1 Real-time National Change of Address processing (NCOA)

Run iMove to identify individuals, families, and even organizations that have moved within the last 18 months and update their iMIS records in real-time.

### 3 Generates USPS documentation

The USPS requires that your addresses be verified every 95 days. iMove generates the documentation to prove it. This ensures lower postage costs and fewer pieces of returned mail. (CASS Certification)

ID	Purpose	Last Name	First Name	Company

ALL DATA CHANGES ARE VISIBLE IN IMOVE.

### 2 Validates all or some of your database

You can validate your entire database or just a part of it, such as only your mailing list.

### 4 Updates your database, not just your address list

Many mailers offer to perform NCOA for you. What they don't do is get those updates back into iMIS. iMove does!
