

IDOCUMENT

DOCUMENT YOUR IMIS AND DATABASE ENVIRONMENTS.

1 Capture iMIS ...

Activities, User Windows, Business Objects, IQAs, and Reports

3 Got notes?

Input all the pertinent extras - Expanded descriptions of objects and fields, how this particular data gets populated, how frequently that job runs, etc.

2 Unearth your database ...

Tables, Views, Stored Procedures, Functions, and Jobs.

4 ... and Print!

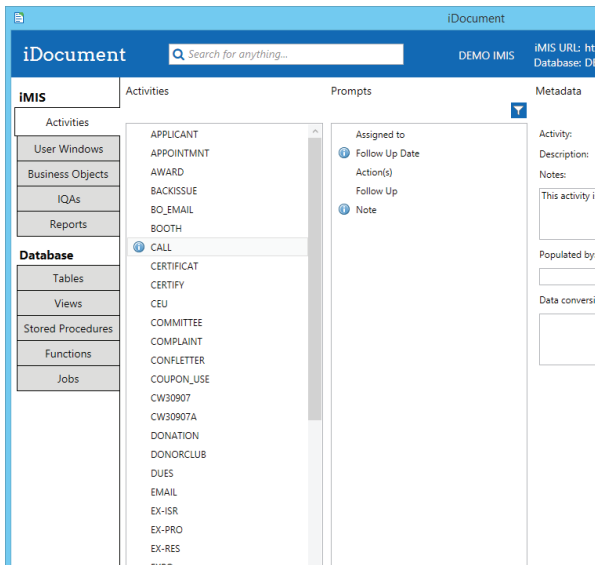

Generate HTML documentation on some or all of these items. Share internally or with your 3rd party partners. Make life so much easier.

What They're Sayin'

"I've been waiting years for a solution that gives us the capabilities of iDocument. To solve the problems of documentation, troubleshooting and modeling all in one fell swoop? Outrageous!"
